Construction Contracting

We deliver construction, equipment, facilities management. From Construction and Infrastructure to Fit Out, Property Services, we deliver complex projects that create a real difference. Our goal is to provide a cost effective and efficient solution to our clients' needs.

Everything we do is underpinned by a set of values that shapes how we manage relationships with clients, employees, shareholders, suppliers & communities.

Underpinning our service delivery is the drive to create a sustainable business and minimize our impact on the environment.

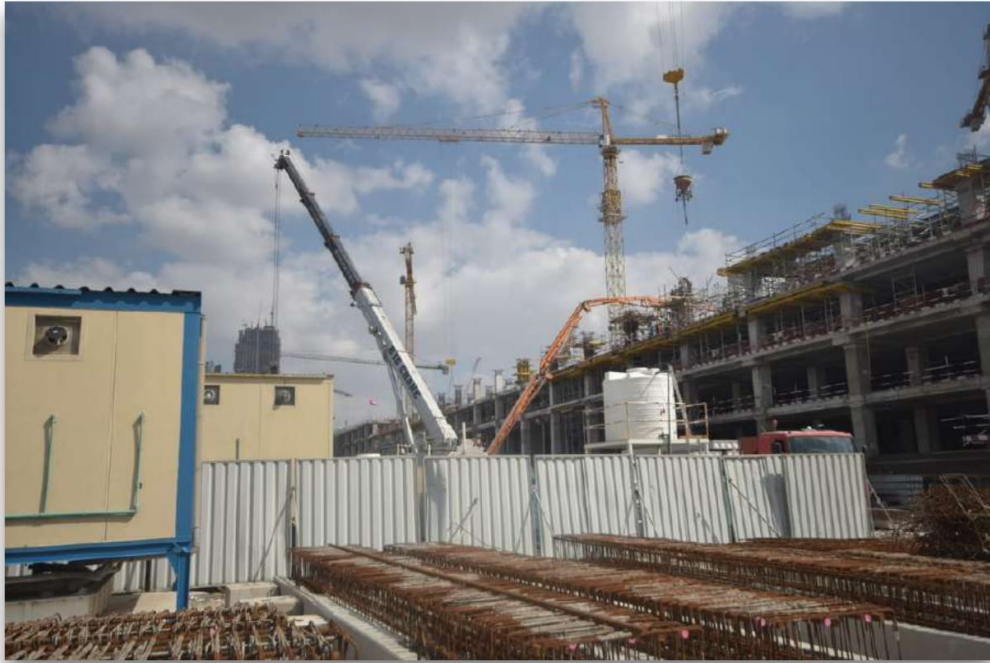

We understand the importance of getting the basics right. Without a clear code of conduct and guidance for identifying issues, making decisions and acting on them we can't deliver our services to the best of our ability.

Bajwa Group of Companies recognizes that our people drive the business. As the most critical resource, employees are safeguarded through training, provision of appropriate work surroundings and procedures that foster protection of health and safety.

All work conducted by Bajwa Group of Companies' employees will take into account the intent of the safety manual.

No duty, no matter what its perceived result, will be deemed more important than employee health and safety.

At Bajwa Group of Companies we are firmly committed to the safety of our employees.

At Bajwa Group of Companies we are firmly committed to the safety of our employees. We will do everything possible to prevent workplace accidents and we are committed to providing a safe working environment for all employees.

We value our employees not only as employees but also as human beings critical to the success of their family, the local community. Employees are encouraged to report any unsafe work practices or safety hazards encountered on the job.

A key factor in implementing our safety programme will be the strict compliance to all applicable country regulations and company policies and procedures. Failure to comply with these policies may result in disciplinary actions.

With respect to the above, we will make every reasonable effort to provide a safe and healthy workplace that is free from any recognized or known potential hazards. We will ensure that at all time we subscribe to these principles:

- All accidents are preventable through implementation of effective health and safety control policies and programmes.
- Accident prevention is good business. It minimizes human suffering, promotes better working conditions for everyone, holds in higher regard with customers, and increases productivity.
- Management is responsible for providing the safest possible workplace for Employees. We are committed to allocating and providing all of the resources needed to promote and effectively implement our safety programme.
- Employees are responsible for following safe work practices and company rules, and for preventing accidents and injuries. Management will establish lines of communication and consult with employees.
- Our safety programme applies to all employees and persons affected or associated in any way by the scope of this business.

Everyone at Bajwa Group of Companies are involved and committed to safety. This is a team effort. Together, we prevent accidents and injuries. Together, we can keep each other safe and healthy in the work that provides our livelihood.

We supply range of mobile cranes, tripper truck, low bed, JCB 3cx, road roller, lorry crane and fork lifter.

We supply aggregates for a variety of construction uses – crushed rocks, white washed sand, black washed sand, black washed ordinary, bolders, natural rocks sand and gravel - from a network of quarries, depots, and wharves.

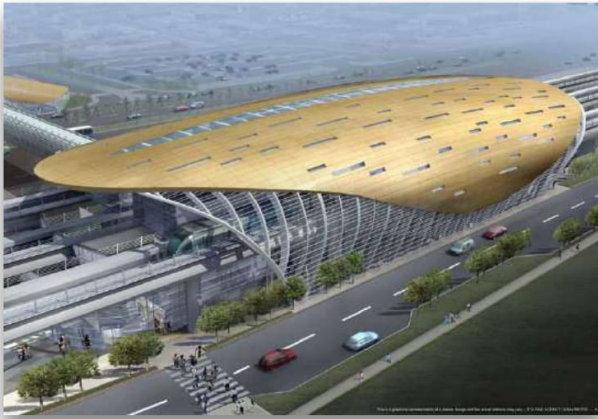

We provide talented workforce holding high degree of specialization and industry knowledge and experience in construction fields.
